

The Midwest Finance Association and the *Journal of Fixed Income* (JFI) are pleased to announce a Special Issue of the *JFI* on:

Credit Risk

Papers included in this special issue will be selected from papers presented at the 2008 Midwest Finance Association Conference February 27-March 1, 2008, San Antonio, Texas.

Topics include, but are not limited to:

- sub-prime markets, commercial and residential
- pricing of credit derivatives
- default risk modeling
- collateralized debt obligations
- recovery rates on secured obligations
- credit spreads and systematic factors
- corporate bonds and credit spreads

All submissions must be made on the MFA conference site www.mfa-2008.com by September 15, 2007, and marked Symposium Sessions: Credit Risk. By submitting your paper to these Symposium Sessions you agree that you are also submitting the paper for possible publication in *JFI*. There is no submission fee. Select conference papers from the Symposium sessions will appear in the Special Issue of the *JFI*, after clearing the *JFI*'s normal review process. Further paper submission and program participation details are on the MFA conference website.

SPECIAL ISSUE EDITORS:

Jean Helwege, Penn State University

Sanjiv Das, Santa Clara University

Ren-Raw Chen, Rutgers University
