MFA
MIDWEST FINANCE ASSOCIATION
FOUNDED 1951

The Midwest Finance Association and the *Review of Futures Markets* (*RFM*) are pleased to announce a Special Issue of the *RFM* on:

RISK MANAGEMENT

Papers included in this special issue will be selected from papers presented at the 2008 Midwest Finance Association Conference February 27-March 1, 2008, San Antonio, Texas.

Topics include, but are not limited to:

- Advances in risk management and measurement
- Capital allocation for financial institutions
- Innovations in volatility modeling
- Credit risk correlation and modeling
- Credit derivatives and credit risk management
- Interest rates and term structure modeling
- Foreign exchange risk management
- VaR – methodology, measurement and estimation
- Operational risk management
- Liquidity risk management
- Weather derivatives and weather risk management
- Real estate risk management

All submissions must be made on the MFA conference site www.mfa-2008.com by **September 15, 2007,** and marked Symposium Sessions: Risk Management. Select papers from the Symposium sessions will be invited for possible publication in the Special Issue of the *RFM,* after clearing the *RFM'*s normal review process. The normal submission fee will be waived for papers submitted for the special issue. Further paper submission and program participation details are on the MFA conference website.
